

Rasmus Wikman

UX Engineer

Rasmus is a seasoned UX Engineer with 20+ years of experience in crafting user-friendly, visually appealing interfaces that balance technical precision with business and end-user needs.

Driven by innovation, he continually explores new ways to refine functionality and design, ensuring his solutions stay competitive and future-ready in the fast-changing digital landscape.

Rasmus is a true master at creating both visually attractive and technically perfect frontend implementations for both web and mobile. It has been a real pleasure to work with Rasmus, as what is delivered is always top-notch. He is eager to learn new things and is happy to share his experiences and lessons learned.

– Stefan Granit, Lead Developer & Mentor

Rasmus is very skilled at frontend and is more than capable at doing backend as well. Can always be relied upon to help if I have any issues regarding CSS or frontend. Understands the larger picture in environments and has good insights into development and processes.

– Tomas Kolam, Technical Architect & Superior
